

Your company

Sample founder pitch. Replace with your company's one-line description.

Customer problem

- Who experiences the problem and how often?
- What does the current workaround cost?
- Add a sourced customer observation.

Product and customer outcome

- Describe the core product workflow.
- Explain the measurable outcome for the customer.
- Add a product demonstration link in the speaker notes.

Market and timing

- Define your initial customer segment.
- Size the reachable market using a stated method.
- Explain the change that makes this opportunity timely.

Traction

- Add dated revenue, usage or pilot evidence.
- Separate paying customers from trials and pipeline.
- Include the measurement period and source.

Business model

- Describe pricing and who pays.
- State gross margin and customer acquisition assumptions.
- Explain the sales process and expected payback.

Team and execution

- Introduce the team with relevant evidence.
- Identify the next operating milestones.
- Name the capabilities you still need to hire.

Funding and next milestones

Add the round amount, use of funds, target runway and contact details.
