

Company investor update

Sample update. Add company name and reporting period.

Progress against plan

- Report the previous period's milestones.
- Explain material variances and corrective action.

Operating metrics

- Include revenue and customer measures with their definitions.
- Compare the current period with the previous period.
- Separate actual results from forecasts.

Cash and runway

- State cash balance and the measurement date.
- State monthly net cash flow and scenario assumptions.
- Identify any expected financing dependency.

Priorities and risks

- List the next milestones and their owners.
- Describe the most material unresolved risk.

How investors can help

Add specific introductions, hiring needs or customer requests and a contact.
